

Study Island has partnered with the Northwest Evaluation Association (NWEA[™]) to offer a fully integrated solution that uses a student's Measure of Academic Progress (MAP[®]) assessment results to create an individualized learning path, delivered through the Study Island program. (If your school has not purchased the NWEA[™] MAP[®] Link, please contact your Educational Consultant.) Once your school's admin has imported your student's results from NWEA, each student will receive a unique Learning Path within Study Island based on their individual MAP Rasch unit (RIT) scores.

To import NWEA Map Scores into Study Island:

1. Log in to Study Island and click "Admin Page" on the left side of the page.
2. On the Admin Functions tab under Administration, click "NWEA[™] MAP[®] Link."
3. Click "Browse" next to the "Select the file to import" field, to locate and select your NWEA Map Scores file.
4. Title the import and select your state. The title of your import will help you to differentiate each import through the year.
5. Click "Import my NWEA[™] MAP[®] File."
6. When the import is complete, you will see a green message across the top of the page stating the import was successful.

Before importing your school's NWEA Map Scores:

- Save the NWEA Map Scores excel file to your computer. The file you receive from NWEA should automatically include the following required fields:
 - o StudentID
 - o Discipline
 - o Goal1Name
 - o Goal1RitScore
 - o (goals up to goal 8 will be stored)
- You may also add the following optional columns to the file for display purposes only:
 - o TestName
 - o TestStartDate
 - o TestRITScore
- Confirm that your students' Study Island SIS Primary Key matches the Student IDs used with NWEA. If they do not match, students will not be able to view their Learning Paths.

NWEA will be happy to assist you with finding the right file to use with your Study Island NWEA Map Link! You can reach NWEA at 877.469.3287 or techsupport@nwea.org.
